

Owl Class Year 1 home learning pack Tuesday 2nd

February

Please see page 2 onwards for resources to support this learning.
You do not need to print the sheets, you can use any pieces of paper to complete the work—the attached are for guidance.

Email

Please email all questions **and finished work** (scans or photographs) to this address:
owlhomework@corvuseducation.com

Phonics/ handwriting	 English	 Maths	 Science
<p>Miss Howes would like you to watch the letters and sounds phonics video lesson 52. In this lesson you will be recapping all the ways you can say 'i' including the split diagraph i-e learned earlier this week: igh, ie, i, i-e</p> <p>On page 2 is a table of the ways you can say i. There are a list of words you need to put in the correct column (Adults - There will be two words in each column when completed) When you have finished, highlight the igh sounds in the words.</p> <p>Handwriting</p> <p>Write out the igh words from phonics in your handwriting books.</p>	<p>This week we are going to be writing a non-chronological report this is a non-fiction or factual piece of writing.</p> <p>Here is a clip explaining a non-chronological report—we are not going to go into quite as much detail as this video does.</p> <p>Have a look at the features of a non-chronological report on page 3. You can either then use the example on page 3 or find a non-fiction book that you have at home. See if you can locate the features that are listed.</p> <p>Think back to yesterday and the animal that you researched and the information that you gathered. What subheadings could you sort it into? Subheadings are often phrased as a question, for example "Where do owls live?"</p> <p>Can you decide on your subheading questions and write them down?</p>	<p>Today we are going to think about how the numbers to 50 can be partitioned (broken up) into tens and ones.</p> <p>Watch Tens and Ones (video on right on second row).</p> <p>Have a go at the worksheet attached to the email.</p> <p>Extension challenge:</p> <p>Match the pictures and words.</p> <ul style="list-style-type: none"> • Four tens and three ones • Two tens and five ones • Three tens and four ones • Three ones and five tens <div style="text-align: right;">  How many? <input type="checkbox"/>  <input type="checkbox"/>  <input type="checkbox"/>  <input type="checkbox"/> </div> <div style="border: 1px dashed black; padding: 5px; margin-top: 10px;"> <p style="text-align: center;">Maths Board</p> <p>Feeling wobbly: Side A, Number 8</p> <p>Feeling confident: Side B, Number 18</p> </div>	<p>Yesterday Mrs Turk showed you how to set up your experiment.</p> <p>Have a look at the sheet on page 4 and see if you can complete the sections.</p> <p>A prediction is what you think is going to happen, and you MUST give a reason, for example:</p> <p>I think the one with no warmth will still grow because plants grow in the Winter when it is cold outside.</p> <p>You do not have to use the format suggested, you could draw or take pictures and stick them on a sheet that show how you have set this up, you can ask an adult to scribe your answers as you discuss it.</p>

Phonics:

igh	ie	i	i-e

night

dig

pie

slide

kite

tie

big

light

Non-Chronological Reports

We write non-chronological reports to give people information on a particular subject.

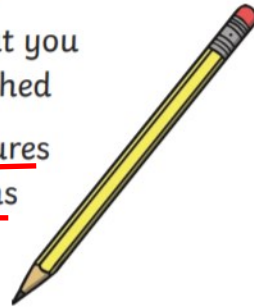

Examples

- non-fiction book
- information leaflet
- fact sheet or fact file

Structure

- use a title
- write an introduction
- put your information into sections
- give each section a sub-heading
- use facts that you have researched
- include pictures with captions

All about Autumn

Autumn is one of the four seasons; it is the season that comes after summer. Autumn begins in September and finishes in November.

What happens to the animals?

Hedgehogs hibernate through autumn and winter. They collect lots of berries and eat them all before rolling themselves up tightly into a ball and falling asleep.

During autumn, squirrels will go out to collect nuts and acorns. They dig a hole in the ground and store their supply of food.

Geese fly south for the winter to find a warmer place to live, and fly north again for the spring.

What foods are harvested?

During autumn, many foods are harvested. Foods such as pumpkins, carrots, cauliflower, sweetcorn and apples are harvested in the autumn.

What is celebrated in autumn?

On 31st October, many people around the world celebrate Halloween. Children dress up in costumes and pumpkins are carved into silly or scary faces that are lit up with candles.

Bonfire Night is celebrated on 5th November. This is usually celebrated by having a bonfire and watching fireworks with friends and family.

My cress growing experiment.

What I think a plant needs to survive:

What I have done to find out if a plant needs all if these things (explain what you have done to set up your experiment, for example one set of seeds has no light because they are in a box but they still have water and warmth)

What I think will happen: My predictions are that
