

Reception home learning pack Tuesday 2nd February

You do not need to print the sheets, you can use any pieces of paper to complete the work—the attached are for guidance.

Our Core Story is “The Dark” by Lemony Snicket and we will be linking our activities to this, and reading some of it to you over the next few weeks.

Email address:

Please email all questions **and finished work** (scans or photographs) to this address:

owlhomework@corvuseducation.com

Daily Phonics

Today our new sound says /ow/. The phonics fairy story for this is not available online so I will find it and read it next week. Instead you can watch the [Letters and Sounds /ow/](#) lesson. There is also a great [Alphablocks](#) video for this sound too.

Can you write labels for the /ow/ words on page 2?

Activities: Here are 3 challenges for you for today.

Challenge 1: Different plants grow at different times of the year. Can you find out about one plant that grows well in each season? You could make a chart to show what you have found out. Can you see the plant you have chosen for this season anywhere? Watch how it grows over the next few weeks. Can you measure it as it grows and keep a record of it? This does not need to be in standard measures (cm etc) try using non-standard measures such as bricks/pencils/straws.

Challenge 2: Plants grow and change over time. How have you changed over time? Have a look at pictures of you over your life so far, what has changed physically about you, what has changed in what you can do? Ask a grown up to show you pictures of them as they have grown up, how have they changed? What do you think will change about you as you continue to get older? Write down some of your ideas.

Challenge 3: Draw around/ make a print of one of your feet. Choose something small to measure with, for examples; cubes, Legobricks (the same size), pasta, straws etc. Find out how many pieces of pasta long your foot is. You could repeat this with different measuring units. What do you notice when you use bigger or smaller units of measure? Take a photograph and record how long your foot is. You could repeat this for your hand.

Something physical: It's [dough disco time!](#)

OW

Caption: ow, ow, meow said the cow

Action: Create cow horns by placing thumbs either side of your head and extend little fingers.

cow, down, bow, town, towel, now
