

Aslacton Primary School - Newsletter Friday 11th June 2021

This term our Core Value is: Community

This week in Aslacton

Here is a snapshot of our learning this week: Owl class have been exploring habitats including their own and thinking about what animals might live there. They have also explored the African savannah from our new core story. In maths they have explored direction and used left and right. Kestrels have had a brilliant week! Those who have been at school worked with Mrs Tyler and Nadia to design rainforest creatures. They wrote fact files about their animals and created them out of clay. They have spent lots of time developing their teamwork skills by completing a range of team challenges. Our KS2 children attended a residential trip to Horstead and had an exciting and fun-filled three days of learning new skills. They got to experience canoeing, paddle-boarding, archery, rock climbing and flying through the sky on a zipwire! The children approached these activities with enthusiasm and confidence. It was an absolute pleasure to take so many well-behaved children. They have all demonstrated confidence, independence and team building skills. A credit to all parents and Aslacton Primary School!
